Product History

- Product invented and developed in Switzerland (Security for Financial Industry)
- First Industrial Applications in 2009 (Predictive Maintenance)
- Integration of Video Analysis in 2013 (Caberra® - the cognitive connector)
- Establishing EMEA IoT Center in Austria in 2016 (IoT40 Systems GmbH)

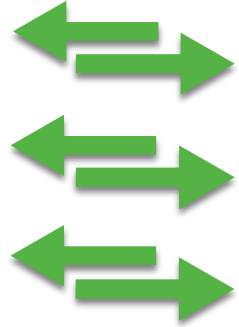

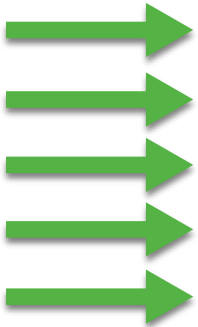

CABERRA: How our cognitive connector works

Knowledge Acquisition Process Rules

Rule 1
Rule 2
.
Rule X

Connectors continuously see, feel, detect, ...

Operators & Consumers interact and monitor

DesSnet Research Project

- IoT40 Systems provides Caberra as demonstrator application
- Caberra RFID application areas
 - wireless sensors
 - access control systems
 - logistics
