

Turn your idea into a business model and launch your startup

The build! Gründerzentrum is a competence-, support- and development center for

- technology- or knowledge-based startups
- scale-up projects for young entrepreneurs
- project development in Carinthia-based opportunity fields

As an incubator, we accompany your startup project from your first idea to the market entry and beyond.

build! Incubees receive support for

- the development of a business idea
- the build-up of the right business model
- drawing up a business plan
- questions about financing and funding

Anyone who wants to build his own business can profit from our high-quality service and our broad network.
